

An infographic featuring a light gray map of the United States. Five callout lines originate from different parts of the map and point to large numbers and descriptive text. The numbers are: 160 (top left, green), 11.4 (top right, dark blue), 1,043 (bottom left, dark blue), 486 (middle right, dark blue), and 557 (bottom right, dark blue).

160

incidents
occurred between
2000 and 2013

An average of
11.4

incidents occurred annually,
with an increasing trend from
2000 to 2013.

1,043

Casualties, including killed
and wounded
(shooters were not included in this total)

486

were killed in 160 incidents

557

were wounded* in 160 incidents.

*A handful of those identified as “wounded” were not injured by gunfire but rather suffered injuries incidental to the event, such as being hit by flying objects/shattered glass or falling while running. This does not account for all those wounded in this fashion or any mental or emotional trauma that resulted in potential medical treatment.
